Tareq Jami

Fullstack Software Engineer

info@jami-it.de · tareqjami.de · Hamburg, Germany

PROFILE

Fullstack Software Engineer with six years of experience building scalable web applications with Angular/TypeScript and C#/.NET. Currently Lead Frontend Engineer at Tesla, responsible for the architecture and technical direction of internal tooling projects.

Focus on RESTful APIs, relational data modelling, CI/CD and cloud (Azure, AWS, Docker, Kubernetes, Terraform). Creator and maintainer of the open-source library ng-openapi with 10,000+ npm downloads per month. Quality-minded through code reviews, automated testing and mentoring; regularly gives training sessions and talks for developers.

EXPERIENCE

Tesla Automation — Prüm, Germany

> **Lead Frontend Engineer** *Mar 2026 – Present*
>
> - Own the architecture and technical direction of several internal tooling projects
> - Mentor the team; established frontend standards through code reviews and pair programming
> - Design and deliver internal training sessions for developers
> - Modernize the codebase with Angular Signals and a reactive, maintainable state model
> - Plan and prioritize projects; improve developer experience through tooling and CI pipelines
>
> **Software Engineer** *Sep 2024 – Feb 2026*
>
> - Led an internal digitalization project that is used internationally across Tesla
> - Developed full-stack solutions (Angular/TypeScript, C#/.NET, REST APIs) and made the key architectural decisions for frontend and backend
> - Requirements analysis and close coordination with stakeholders and end users at international sites

Public Cloud Group (PCG) — Hamburg, Germany

Software Engineer · Lead Frontend Developer *Sep 2022 – Aug 2024*

- Technical lead and technical project management (TPM) for a development team in client projects: team coordination, client meetings and project alignment
- Lead frontend development with Angular and React; architecture design and alignment; code reviews
- Serverless architectures on AWS with Terraform (Infrastructure as Code); backend with C#/.NET and Node.js
- Mentored junior developers; onboarded and trained new team members

PHÖNIX MAXPOOL Gruppe AG — Hamburg, Germany

Full Stack Developer · Part-time *Oct 2021 – Oct 2023*

- Frontend and backend development with Angular and C#/.NET
- System administration, code reviews and deployment automation
- Configured GitLab CI pipelines and servers; software architecture consulting

ETA+ GmbH — Hamburg, Germany (from Jan 2022 FESforward GmbH, part of ETA+)

Full Stack Developer *Sep 2020 – Aug 2022*

- Energy monitoring platform (smart building) and custom software for business clients: Angular, .NET 5/6, EF Core, MS SQL Server, SignalR
- Automated deployment processes and pipelines with GitLab CI/CD; cloud services on Azure and AWS
- Client meetings and project alignment; onboarded new team members in frontend and backend

OPEN SOURCE & PROJECTS

ng-openapi — ng-openapi.dev

Creator & Maintainer *Jul 2025 – Present*

- Angular-first OpenAPI client generator: type-safe Angular services, models and validation schemas straight from OpenAPI specifications
- 10,000+ npm downloads per month and 70+ GitHub stars; plugin system (Zod, httpResource), multi-client architecture, HTTP interceptors
- Nx monorepo with a Vitest test suite, ESLint/Prettier, GitHub Actions CI and automated releases (release-please, npm publishing)

Simple Shot Timer — simpleshottimer.com

Flutter app · Google Play *May 2026 – Present*

- Shot timer for sport shooters: microphone shot detection, par drills, splits, local SQLite persistence and CSV export
- No ads, no tracking

TALKS

HH.js Meetup — Hamburg · Recording: tareqjami.de/talks/strong-types

Strong Types, Strong Frontends *Sep 2025 · 22 min*

- How generated, typed API clients keep an Angular frontend in step with its backend: generating clients from OpenAPI specs, and a look at ng-openapi, Hey API and OpenAPI Generator.

SKILLS

Frontend
Angular, TypeScript, RxJS, Astro, DevExtreme, Angular Material, AG Grid, Bootstrap

Backend
C# .NET, Entity Framework, Node.js, NestJS, GraphQL

APIs & Integration
REST APIs, OpenAPI / Swagger, HTTP Interceptors, Zod, Kafka

Databases
MS SQL Server, PostgreSQL, SQLite, Redis, Prisma, Data Modelling

DevOps & Cloud
Azure, AWS, Docker, Kubernetes, Terraform, Git, GitLab CI/CD, GitHub Actions, Deployment Automation

Testing & Quality
Vitest, Playwright, .NET Unit Tests, Code Reviews, Pair Programming, ESLint / Prettier, Software Architecture, Mentoring

AI Development
Claude Code, MCP, Skills Development, Consulting

Mobile & More
Flutter / Dart, Nx Monorepos

Languages
German (Native), English (Fluent), Arabic, Persian

EDUCATION & QUALIFICATIONS

Hochschule Trier — Trier, Germany

> **Master of Science, Computer Science** *Mar 2025 – Present*
>
> - Expected graduation 2028, alongside full-time work
>
> **Diploma of Advanced Studies (DAS), Computer Science** *Mar 2025 – Jan 2026*

Vocational training — IHK qualification

IT Specialist for Application Development (Fachinformatiker für Anwendungsentwicklung)
